4 - 4+ Ton

89-4103-20

This is a Universal Kit that contains the Control Kits and Adapter Plates for recent and older model Nordyne and Evcon gas furnaces*. This kit includes the 89-4103-05C, 89-4103-MG, 90-9240-00 and the 90-9241-00.

=

Fits these Gas Models

Nordyne

M1() H
M() HA
M() HB
M() BB
Series

Evcon

D() AM
D() RT
D() AT...B
Series

* See application sheet for Nordyne/Intertherm/Miller and Evcon/Coleman

Buy this Universal Kit

1. If your customer isn't sure what furnace will be on the job.
2. If you prefer to stock a Universal Kit...instead of the individual control boxes, adapters and accessories.

Remember...Furnaces older than 10 years require a different blower series...and the 4103-20 will not work on these. Use the 87-1008/1208-34E Blower for the oldest models. These include the Nordyne MGH-04, MAC and MGH Series...the Evcon 76-77-7900 and D() RT...A. See application sheet.

Blower Conversion Using Universal Blower Accessory Kit - Electric

* See application sheet for Nordyne/Intertherm/Miller Electric Furnaces.

** Universal Kit not needed for Evcon/Coleman Furnaces.

Insulation Kits are not included in Universal Kits.

Buy this Universal Kit

1. If your customer isn't sure what furnace will be on the job.
2. If you prefer to stock a Universal Kit...instead of the individual control boxes, adapters and accessories.

Remember...Furnaces older than 10 years require a different blower series...and the 89-4103-E2S will not work on these. Use the 88-1008/1208-34E Blower for the oldest models. These include the Nordyne FEHB, FEHA and FEB-() Series...and the Evcon 3400/3500 Series. See application sheet.
